## INTERESTING SPEAKER AT CONFERENCE

The agricultural conference held in the Presbyterian Church last Friday night, though not drawing an exceptional crowd, proved to be a very interesting as well as educational meeting. Mayor W. H. McCallum presided and the chairman introduced the speaker, Mr. Archibald, livestock superintendent of the departmental farms at Ottawa. Thought very interesting. It is the opinion of several he impressed his audience with his erudite converser with his calling and gave a very interesting talk on the growing of livestock, and feeling of same and strongly advised a development of tile roads in the irrigation belt. He is a genuine old time market prophet and showed how at times the western farmer is at a disadvantage, compared with the farmer in the east, and lie said that it was the eastern farmer who was most under consideration a place whereby the farmer could market his produce to the best advantage. Citing one instance in Ottawa property now selling for \$1,75 per acre, he said that the price will go up if the farmers are selling them for thirty cents per bushel; the freight is twenty cents a bushel, but even then there is a margin of \$1.25. These are conditions, said Mr. Archibald, that the government is considering to remedy, so that the farmer in any province could realize equal benefit.

Mr. Archibald spent considerable time answering the questions asked by those in the audience.

Our culture is not measured by our greatest knowledge, but by the nicely of our expression.

We have a right to air our convictions but we should respect the opinions of others.

No man is perfect, but he comes nearest to it who leaves no trail of regrets for the days that are past.

## SATISFIED WITH IRRIGATION

The Mail will publish from time to time the views as expressed by different irrigation farmers in the new Bassano colony and printed in a folder issued by the Business Extension of Settlement Club. The first one to be published is that by D. D. Fortune.

Ation P.O., Alberta.  
November 26th, 1914.

"I came to Southern Alberta about a year ago from Colorado, and can see no great difference in climatic conditions here and in Eastern Colorado. We can grow wheat here just as can be grown in Colorado except winter wheat, which is a chocolate brown, is not so good here as in Colorado. The soil, which is a chocolate brown, is very poor, but the climate is good, and there is no doubt that the C.P.R. has the best irrigation system in the world. It is quite demonstrated here this year that with irrigation, crops could be forced during the growing season and thereby eliminate all danger from frost, and from a ruined harvest standpoint. I think the Bassano colonists are doing a good job, and I am looking forward to the day when the farmer in any province could realize equal benefit."

Mr. Archibald spent considerable time answering the questions asked by those in the audience.

## THAT BASSANO RAILWAY TALK

According to a reliable source the Red Deer and Mountain Alberta this week Bassano will be the second line of industry this summer through the building of the Bassano-Coronation railway. While all would be very glad if it were so, the railway company has not confirmed this information from any reliable source. The road would certainly be a welcome visitor to the farmers across the Red Deer and the railway would advantageously serve the Bassano irrigation project in the future. Very large arrangements are being made with the Great Smith Company, who are said to have bought the charter, and the public can be made aware of what the future policy of the company really is.

Highest Grade Gasoline, Hard Oil and Automobile Oil, Goodyear Tires and Auto Accessories.

## The Ford Garage

We agree to pay, to the buyer's agent, from \$40 to \$60 per car (or about August 1, 1915) to every retail buyer in the Dominion of Canada, who purchases a new Ford Model A, April, 1914, and April, 1915, provided the car is in good condition and is worth \$60.00 or better than the above. This which amounts will enable us to obtain the maximum efficiency in our factory production and the minimum cost in our purchasing and sales departments.

ROY SMITH

MEN! Our New Stock of High-Grade STYLISH SHOES has arrived. We are making a special prices of per pair

## PHOTO OF THAW DURING RECENT TRIAL

This celebrated case is being fought over again in the New York Courts; Although Thaw has been acquitted of conspiracy he is held pending a further decision on his sanity.

## GEOLOGISTS AT THE RED DEER

Brooks Bulletin

The number of petrified dinosaures remains will be back on their old stamping grounds on the bank of the Red Deer river north of here, this coming summer, according to reports. This will be located under the ground and prepared for exhibition at the fair. The work of the dinosaures will be shown as extensively as during the past summer for various reasons.

Prof. Parham Brown, of the New York Museum Natural history, pioneer of the Red Deer district, and who has been the leading authority on the subject from there, is coming back for a short time. He is in search of remains of a prehistoric monster which has been given a name similar to the "Tyrannosaurus" of the deserts of the arid West, except for occasional teeth and small bones. Prof. Brown expects to spend the most of the summer on the Lethbridge (or Bly) river.

The Geological Survey of Canada, prominent naturalists, is expected back after having spent the winter studying and visiting the principal museums of the continent. W. E. Cutler, who represented a Calgary syndicate last year, has been commissioned to locate certain specimens by other parties this year.

## THE MARCH TO THE BATTLEFIELDS

Top above is a picture that will for many years to come be a highly prized treasure. It is a photographic reproduction of a painting showing the 33rd, 90th and 100th Regiments of the Canadian Militia marching through the streets of the Continental forces. It shows miles and miles of the white tents and the marching men. It is a most inspiring sight. The men are in full uniform, ready for marching. This picture is to be a popular souvenir of the war as far as Canada is concerned, and will be in great demand. It is owned by The Family Herald and Weekly Star, of Montreal, whose subscription of one dollar a year is received from this date for a limited period.

## HOW TO ADDRESS MAIL TO SOLDIERS

In order to facilitate the handling of mail at the front and insure prompt delivery it is requested that all mail be addressed as follows:

- (a) Rank
- (b) Name
- (c) Regimental Number
- (d) Company, Squadron, Battery or other unit
- (e) Battalion
- (f) Brigade
- (g) First (or Second) Canadian Contingent
- (h) British Expeditionary Forces Army Post Office, London, England.

## INSPECTOR'S REPORT ON BASSANO SCHOOL

Dear Sir:

Following my second visit to the Bassano school I have to submit the following report.

One of the most notable changes in the school is the introduction of the High School Department of the Canadian Government's Experimental Station Laboratory. The numbers already enrolled speak for the future success of this phase of the work, provided the school is kept in able hands.

The new buildings and grounds are enviable indeed.

The children doing garden work this spring.

The agricultural phase of the work is receiving more attention all the time and rightly so.

A general awakening is noticeable.

I have noticed that increased enthusiasm and adequate discipline have not kept pace as the pupils do not exercise at all times sufficient self-control.

I would like to thank the Writing Books authorized by the Department of Education to be used in the school in all grades.

The regularity of attendance of the pupils is excellent.

The Principal, Mr. Mitchell, is well qualified to teach his work. The pupils are working hard and making good progress, maintaining at the same time a cheerful attitude.

I fear that too much work is being attempted in the given time, especially with the High School subjects.

Miss Golden has a bright active class. She is doing splendid work and I can heartily recommend her to the trustees since the success of my direct visit.

Miss Dooley is a steady, capable, conscientious worker and her class is well disciplined and instructed.

Miss Dooley has had a fair chance to show what she is capable of doing, owing to her illness.

Mrs. Halligan's class is not as good as I had expected. Miss Halligan's scholarship and professional training are good but there is a lack of individuality in teaching that is most undesirable.

I would like to enclose a small unprinted picture of the Bassano school to forward to the Department for inspection in their annual report.

Five applicants were given examination by the boiler inspector in Bassano on Wednesday.

I have examined the book and records of the district and I find everything in fine fettle.

Yours very truly,

M. E. Lezette,  
Inspector of Schools.

## THE TOWN'S CREDIT NOW STANDS GOOD

Finance Committee Chairman Geo. I. Travis and Secretary-Treasurer G. D. Bond took a trip to Winnipeg the early part of March, and secured a loan of \$10,000 to finance the school needs in finance to prevent the credits and to continue in operation the affairs of the town. Their mission was successful and Bassano will now be able to meet the current expenses.

The new buildings and grounds are enviable indeed.

The children doing garden work this spring.

The agricultural phase of the work is receiving more attention all the time and rightly so.

A general awakening is noticeable.

I have noticed that increased enthusiasm and adequate discipline have not kept pace as the pupils do not exercise at all times sufficient self-control.

I would like to thank the Writing Books authorized by the Department of Education to be used in the school in all grades.

The Bassano band is at last under

instruction. The first regular practice

period will be held on Tuesday and Friday evenings, from 7 p.m. to 9 p.m.

The regularity of attendance of the pupils is excellent.

The Principal, Mr. Mitchell, is well

qualified to teach his work. The pupils

are working hard and making good

progress, maintaining at the same time a cheerful attitude.

I fear that too much work is being attempted in the given time, especially with the High School subjects.

Miss Golden has a bright active class.

She is doing splendid work and I can heartily recommend her to the trustees since the success of my direct visit.

Miss Dooley is a steady, capable, conscientious worker and her class is well disciplined and instructed.

Miss Dooley has had a fair chance to show what she is capable of doing, owing to her illness.

Mrs. Halligan's class is not as good as I had expected. Miss Halligan's scholarship and professional training are good but there is a lack of individuality in teaching that is most undesirable.

I would like to enclose a small unprinted picture of the Bassano school to forward to the Department for inspection in their annual report.

I have examined the book and records of the district and I find everything in fine fettle.

Yours very truly,

M. E. Lezette,  
Inspector of Schools.

## The Mystery of the Ravenspurs

By Fred M. White

Ward, Lock &amp; Co., Limited

London, Melbourne and Toronto

(Continued)

He felt his way rapidly, retreating along the few feet between his resting place and Ravenspur's entrance. He had no time to stop, however, to push his blanket out of sight. As he came to the door of the room, he heard a sharp exhalation. He stopped and then his fingers touched something warm.

"What have you caught the taste of?"

"The taste of a man's blood," she said, "and it is strong. She was trembled from head to foot with fear and excitement. It was dark, and the intense horror of it was dreadful. 'Yes, yes,' she whispered hoarsely, "I know what it is. I know it is him. And that good old man told me that the day would come when I shall have got rid of those plagues. The door is locked."

"The door is now but command. In Marion obeyed mechanically. With great strength and determination Ralph drug himself against the door, and with all his might burst it open. The door flew

inside, Ravenspur lay on his bed. By his bedside a slight light cast a faint glow upon the scene. In the room stood beside Ravenspur himself. He lay back absolutely rigid, a painted mask, his eyes were wide open, his lips twisted convulsively. Marion, who had been watching him like a fascinated white statue of fear and awe, uttered a sharp cry.

"What is it?" she whispered. "What is that choking smell?"

"It is him," he said. He was holding his breath hard. There was a queer graining on his face as he lay there.

The rambling clutching long hands for Marion's forehead, and next came a sound of smothered breath, as when a man beat at the lozenge-shaped windows.

"And here, when not travelling,

strange visitors from time to time.

Macgollan, Hindos, natives of Tibet,

who had just returned from foreign parts."

(To be Continued)

The doctor came into his study, and after a brief consultation approved of the St. George's Cross being conferred upon a girl who had masqueraded as a boy. The man of over six feet in height.

But a cruel misfortune had befallen him. He had let his drawstring almost helplessly behind him, the muscles were cut and then he had to pull it again.

His last entry into Lassa five years ago, a god who walks upright. When he reached the frontier he still remained. And of those privations and sufferings Tchigorsky said nothing, but he had told them all.

When he was gleamed and his broad face was beaming, he had made ready to leave for the west.

As to his face, it was singularly pale, and his eyes were half disfigured with deep scars checked like a chequered board.

"We have seen many men before us, but none were so like him," Tchigorsky's secretary said.

Always early and always busy,

in the morning papers that he had

"I am all right," he said. His eyes were bright and clear, and made

"Ever ready and ever quick, child, you saved my life from that namesake."

"It was Uncle Ralph," said Marion.

"I will never cry but Uncle Ralph."

"He was here all the time," said Marion.

"It was that overbearing drunk," said Ravenspur. "What is it, Marion? What is it?"

"It is a man, a mystery. This is a new horror to me, man, yet there were others who died in that same case."

"I awoke to find myself choke-

**SEVERE ECZEMA  
SPREAD OVER FACE**

**Itched Badly, Became One Mass  
of Pimples, Awfully Disfigured,  
Could Not Sleep, Nearly Mad  
with Pain. Used Cuticura Soap  
and Ointment, Skin Clear.**

50 Montgomery St., Toronto, Ont.—"My trouble with eczema was very severe. It first appeared on my face, and I could not get rid of it. I scoured my face, and became one mass of pimples. I was awfully disfigured, and my face was in a bad condition. At night it would itch so much that I could not sleep, nor have a proper night's sleep. It nearly drove me mad."

"I was recommended to the \_\_\_\_\_ and I also tried \_\_\_\_\_ and I got no results at all. Then I heard about Cuticura Soap and Ointment. After I had finished with each case, I could scarcely believe my own eyes. It certainly was marvelous what Cuticura did for me. I used it every day, and at the same time my skin was clear and smooth."

(Signed) Albert E. Andrews, May 23, 1914.

**Samples Free by Mail**

In purity, similarly prepared, reflecting fragrance, consistency and economy, Cuticura Soap and Ointment are recommended by the most discriminating. Often successful where other drugs fail.

Cuticura Soap and Ointment are sold everywhere. Liberal sample of each mailed free with 25¢. Skin Doctor. Addressee postpaid to Cuticura, Dept. D, Boston, U. S. A."

### Pointers on Handling Butter

Some Good Advice Given Farmers Engaged in Dairying

Prof. W. H. Nichols, of Cornell University, says dairying on the important subject of grading butter has been greatly improved since the confidence of the produce merchants has been gained by the improvement in quality of the product.

Butter is now more popular than ever, and they were low prepared to store in large quantities, which will relieve the market at a critical time and have the effect of steadyng the market.

Butter should be graded and safe, the grading of butter and safe guarding the creamery.

That is the most important truth for the American farmer to know and put in practice. He must not be alarmed by the heavy price, higher, the cost does not apply to a farming condition where the farmer has not begun

to get the natural yield of an honest operation, and the farmer, today, rather he should be encouraged and spurred, more than ever, to prevent his farm falling behind in yield and quality.

On the other hand, a farmer so far as has increased in crops and land values.

Prof. Nichols' paper was one of the best on butter handling. Some instructions were handed out how to treat the papers.

That is an important factor in handling butter. It must be kept dry and cool, and the paper must be well sealed.

Some creameries in the fall, Prof. Nichols' advice, could be used as follows:

"Don't shear weight on containers, but let the cheese get the weight specified. At the same time throw away the stink over weight."

RAE L. KING, Editor.

Subscription: Canada and British Empire \$1.00 per year. To the States and Foreign countries \$1.50 per year.

Advertising rates on application.

"Fearless, Free and Fair"

BASSANO, THURSDAY, MARCH 25TH, 1915

### Making Flower Beds.

There is no place in Canada where flowers will grow to better advantage than in Alberta. If given the best of care and encouragement. The hours of sunshine will, as we have what are flowers revel in. Flowers, like all things beautiful, radiate a spirit of gladness, and a home around which flowers are seen to bloom is one in which people are getting considerable extra out of life.

### Go Easy.

This increased production campaign was not gotten up for 1915 alone. Experts agree that grain prices will be high for the next few years. Don't stoke your all on 1915. Crop only what you have carefully prepared and then set about to prepare your seed bed for next year. Increase your production per acre first, then and only then, increase your acreage.

Stock prices are now very low, but within a few months the markets will be calling heavily for a new supply and the supply is not going to be freely available. This hope for an instance, it is said that not fifty per cent. of last year's production will be reached in Alberta this year. There will be no danger of flushing the market as long as the high grain prices hold.

### "HONEST JOHN" —

It is a pretty good sign of a candidate's popularity among the farmers when they call him "Honest John—the Farmer's Friend," and that is what they call John S. Mavor. One could hardly get better evidence of the fact that they believe in him, when he says he is out to fight the farmers' fight for improved conditions on the farm. Mavor thinks:

**THAT** the roads should be greatly improved;

**THAT** the government should assist the farmers in marketing their produce to the very best advantage;

**THAT** the farmers should be assisted in satisfying their need for cheaper money;

**THAT** the farmer deserves to get money at as low a rate of interest as it is supplied to the great industrial corporations, viz., 5%.

**THAT** it should be made possible for the homesteader to obtain patent to his pre-emption by a smaller cash outlay than is required at present.

**THAT** the farming industry should be recognized as a national asset and encouraged accordingly.

These points list briefly cover some of the more important plank in the platform on which John S. Mavor is appealing to the electors for support. No one doubts for a moment that he will fight them when things are finally obtained. Of course the farmer already appears to be the fact that the Borden Government has done and is doing a great deal to help the Western farmer. In the first three years of its tenure of office the present Dominion Government has greatly modified the homestead and pre-emption regulations, has attempted to give the farmer better roads (but was blocked in this by the opposition's majority in the senate), and has been of untold assistance to the drought-stricken farmer during the past winter and present spring.

Supplying him with food for himself and his stock and providing

him liberally with seed grain for this year's crop. The farmer will be required to pay for these last named benefits but the terms of payment could not be much more liberal; besides, the Farmer of the West is too independent a nature to ask for charity or to accept it if offered. He expects to pay, but is only grateful for the Government's assistance in lifting him over a period of keen financial stress and strain.

Mavor's best argument is that our Bow River Riding should have a representative at Ottawa whose first and most important duty will be to see that the farmer and other men who till under and on the soil should be recognized as the nation's "backbone" and treated accordingly. He is publicly pledged to perform this duty if elected and those who know him believe that he will fearlessly fulfill that pledge. He is progressive and courageous and no one can say that he is one of those hide-bound party men who would sacrifice his people for partisan advantage.

When we vote for "Honest John" we vote for a man who will never betray us a man who is one of ourselves, a man who earned his own way through school and college and without money or influence of any kind has attained success in his profession and honor from the hands of his fellow men.

before the war Belgium had a population of 689 per square mile. England and Wales 558, Holland 406, Italy 293, Germany 311, France 226, Switzerland 214, Austria 161, Denmark 165, Hungary.

If a man is miserable it is usually because he thinks he is.

NEW  
AND  
BUILT  
FOR  
YOU!

**Remington JUNIOR  
Typewriter**

HERE is the typewriter for which you have been waiting. Here is a first-grade typewriter, a genuine Remington Typewriter produced according the iron-clad guarantee and engineering just the qualities you need.

Of course you need a typewriter. Everybody needs one. The time saved and the labor saved by the typewriter is worth saving by you and by everyone who uses it. You can do it for \$100 cash with order. It differs from the standard Remingtons only in these points: It is smaller, it is lighter, it is designed for the smaller uses, such as in business, in the home, in the office, in the hospital, in the school, etc.

Here then is your opportunity—your best opportunity—to buy an absolutely first-grade typewriter at a low price. Better seize the opportunity and buy now. Your money will be safe until you get all the money, for we have arranged special easy terms of payment.

If or \$70.00 we will sell you a Remington Junior Typewriter for \$100 cash and \$3.00 a month. Cut out the attached coupon and send it to us with the \$5.00 deposit and your order, and we will send the machine.

Remington Typewriter  
Company  
General  
110 Sixth Ave. W., Odd Fellow's  
Building, Calgary

Mark  in the proper square and sign your name  
and address.

Remington Typewriter Company  
 I enclose herewith \$10.00 on account of which please  
send me a Remington Junior Typewriter. I agree to pay you  
\$10.00 a month for the typewriter, and that you will re-  
turn the typewriter to me when I agree to pay you for it as  
agreed. I further agree to pay you \$10.00 a month for the  
typewriter, and no holder giving full description of  
the typewriter.

THE MAIL, BASSANO, ALBERTA

**LOCAL AND SPECIAL**

Suits pressed only, 75c.—Torgan.

Plant your sweet peas now—or as soon as you can get a spade in the trench.

Last week we mentioned that the flies and gnophers were out—forgetting to mention the odd auto.

Visit Pierce Bros. store where you will find unusual bargain prices in hardware.

W. D. McKenzie went to Calgary on Wednesday after spending the winter in town.

**Brooks Bulletin.**—The representatives of the Nebraska colony of irrigationists who intend moving to this district, were in town last Friday and looked over the lands. They are: H. H. Herbold, Jacob Schlinger and Alex Scherckhoff. These men will return in June.

New Spring Suits, \$18.—Torgan.

The Rotekahs are this week issuing invitations for their third annual "At Home" to be held on Easter Monday in Robinson's Hall.

The base ball enthusiasts are out practicing in their spare moments and are preparing a diamond in the west end.

Every \$1.00 cash purchase entitles you to a draw on Pierce Bros., 875.00 Kootenay Range being given away during the big sale.

Extensive alterations and improvements are being made to A. McKeon's confectionery store and ice cream parlor. Plate glass windows have been installed and a new plate glass window has been placed in the west side front corner.

New Spring Suits, \$18.—Torgan.

Gleichen Call.—Eggs are down to two bits a dozen. If we had two bits we could afford to eat an egg a day.

Gob. W. Yates was fined three dollars and costs this week for an infraction of the health by-law in connection with his dog business.

We are having some equineficial weather now, snow and wind coming from the north country.

Suits cleaned and pressed, \$1.50 at Torgan's.

According to a return just made by the Department of Railways of the Alberta Legislature there are in the province now 4,697 miles of railway. During the year 1914 a total of 450 miles were built by the Pacific Railway. The railway mileage of Alberta has doubled in the last three years.

R. N. Hanna is spending his holidays visiting friends at Rawl and Edmonton.

A. E. Stevens, Sup't C.P.R., and J. W. Haigill, assistant solicitor, were in town on Monday in the private car Julliee and held a conference with Mayor Flanagan and Senator Morris with regard to a settlement of the disputed account the town holds against the C.P.R. construction department.

B. M. Hall, one of the Indians boys, was quietly married on March 12th to Miss Anna, daughter of Mr. and Mrs. G. G. Snare, of Gleichen. The ceremony was performed at five o'clock in the afternoon and the young couple motored to Banff and took the long train to Vancouver, where they caught an early morning train, then immediately proceeded to the home of Mrs. Hall's parents, and news of the happy event came as a pleasant surprise to their numerous friends.

**Lion Brand Clothing for Boys and Youths.**

Bring Him in and Try on a Suit.

**BASSANO BRANCH** — G. W. BOYD, Manager

**Buy an Irrigated Farm from  
The Canadian Pacific  
Railway.**

**BECAUSE:** Irrigation makes the farmer independent of rainfall, and insures good crops, not occasionally.

Irrigation makes possible the successful culture of alfalfa, the king of fodders, which insures best returns in dairying and mixed farming.

Irrigation means intensive farming and close settlement; with all the advantages of a densely populated agricultural community.

Irrigation in the Canadian Pacific Railway Irrigation Block is no longer an experiment; you may buy irrigated land absolutely demonstrated its success, when irrigated intelligently applied.

You can buy irrigated land from the Canadian Pacific Railway at prices ranging from \$35 to \$75 per acre, with twenty years to pay, and the privilege of a loan of \$2000 for improvements (6% interest), no principal payment at the end of first or second years and no water rental for first year. Interest is also given in supplying stock in approved instances.

This is the most liberal offer of irrigated farm on record.
